

## **Kiddy Academy Curriculum Development**

### **Statement**

Here at Kiddy Academy we set out to assist all children attending the nursery to reach their maximum potential within their perceived capabilities.

To assist in this, aim an individual record of each child's development is maintained, showing its abilities, progress rate & areas needing further staff assistance.

The staff are very aware of the importance of the correct play/enabling environment for the child in line with current legislative framework and the development matters guidance in the EYFS, so they may develop good social skills and an appreciation of all the aspects of this multicultural society.

Planning of the learning experience by the staff is further designed to ensure as far as practical, equality of opportunity between all children.

Planning of activities will be based on observations made of the children and also based on their unique and individual interests. We will plan a curriculum that supports children to develop in all seven areas of learning and development.

Prime areas

Personal, social and emotional development

Communication and language

Physical development

Specific areas

Literacy

Mathematical development

Understanding of the world

Expressive arts and design

Children will be given the opportunity to develop in these areas both indoors and out.

Childcare at its Best
